U.KOSHER.ORG.
 The world's most recognized and trusted Kosher Trademark. This product has passed inspection and meets the high quality standards.

Hull Cleaner provides boaters a more effective, green cleaning solution that is safer for the environment. The product creates high foam, which clings to the surface to maximize the cleaning action easily and effortlessly. This product contains no harsh inorganics or other harmful components. It meets the strict standards of the EPA's Design for the Environment

program. Specifically formulated for the marine industry and boating community where heavy and safer cleaning is required. Safer for humans, marine life and the environment. Developed with an advanced formulation for superior cleaning performance.

Works in Fresh and Salt Water environments.
